

Margin Calculation API Document

Appendix

Pass Authorization key [Session token]

Note : Use different port for IRIS and Margin Calculation port if in case using standalone margin calculator.

PORT : set port in ini file with flag "Margin_Calculation_port" under [IBT] section.

gscid : User Id For Which request has been initiated along with auth token

token : token number from exchange contract/security file

side : 1 for Buy and 2 for Sell.

exchange_segment as stated below ->

NSE = 1,
NFO = 2,
NCD = 3,
BFO = 5,
BCD = 6,

Note :- Contract and security need to upload from contract and security/ span file and AEL files

Contract Security path will be the same from where Manager upload contract which is defined in "CTCLManager.ini" file

For Margin Calculation below file should be there in contract path

NSE EQ -> File name will be VAR011024.xls

NSE FO -> File name will be nsccl.20241001.i01.spn

NSE CD -> File name will be nsccl_x.20241001.i01.spn

API call

1. Standalone MarginCalculatorAPI request.

Request to calculate the Span Margin and exposure Margin for Single Token

Request Type : POST

HEADER:

<https://tester.greeksoft.in:3336/MarginCalculatorAPI>

BODY:

```
{
  "request": {
    "data": {
      "gscid": "DIWA",
      "tokens": [
        {
          "token": 35383,
          "exchange_segment": 2,
          "ltp": 580.00,
          "netqty": 1000,
          "side": 2
        }
      ]
    }
  }
}
```

```

    ]
  },
  "request_type": "subscribe",
  "streaming_type": "MarginCalculation"
}
}

```

In Above request , 'exchange_segment' is the 'market_id' of a contract and 'token' is 'etoken' of a contract.

Response:

```

{"response":{"appID":"bc90bb525bc9739a9595bb9e176dab17","data":{"NewPosExpMargin":20534.5000005867,"NewPosExpense":0,"NewPosPremium":0,"NewPosSpanMargin":117340},"infoID":"0","serverTime":1727436878,"streaming_type":"MarginCalculation","svcName":"MarginCalculation"}}

```

2. MarginCalculatorAPI request. (multiple tokens)

Request to calculate the Span Margin and exposure Margin for Multiple Token

Request Type : POST

HEADER:

<https://tester.greeksoft.in:3336/MarginCalculatorAPI>

: Pass Authorization key [Session token]

BODY:

```

{
  "request": {
    "data": {
      "gscid": "DIWA",

```

```
      "tokens": [  
        {  
          "token": 35383,  
          "exchange_segment": 2,  
          "ltp": 580.00,  
          "netqty": 1000,  
          "side": 2  
        },  
        {  
          "token": 35384,  
          "exchange_segment": 2,  
          "ltp": 4296.45,  
          "netqty": 125,  
          "side": 2  
        }  
      ]  
    },  
    "request_type": "subscribe",  
    "streaming_type": "MarginCalculation"  
  }  
}
```

Response:

```
{"response":{"appID":"bc90bb525bc9739a9595bb9e176dab17","data":{"NewPosExpMargin":56054.468751601555,"NewPosExpense":0,"NewPosPremium":0,"NewPosSpanMargin":307311.25},"infoID":"0","serverTime":1727437653,"streaming_type":"MarginCalculation","svcName":"MarginCalculation"}}
```
